Care Services Directory 2025/26

The essential guide to choosing and
paying for care and support

HALCYON CARE

A TEAM THAT REALLY CARES

Halcyon Care has been established since 1989. It is a family owned company providing residential, nursing and dementia care. We pride ourselves in delivering care which focuses on the resident as an individual and recognises their unique characteristics, lifestyle preferences and care needs.

We aim to provide a friendly home environment with up to date facilities where visitors are welcome at any time.

- Respite and day care • GP visits to our homes • Home cooked meals and a wide range of social activities
- Special care for mental health-related problems • En-suite rooms • Visiting Chiropodist and Hairdresser

All the listings in this publication of care homes, care homes with nursing and home care providers are supplied by the Care Quality Commission (CQC) and Care Choices Ltd cannot be held liable for any errors or omissions.

To obtain extra copies of this Directory, free of charge, call **Care Choices** on **01223 207770**. Alternatively, visit **www.carechoices.co.uk/order-copies-of-a-directory** to order a copy online.

Alternative formats

This Directory is available electronically at **www.carechoices.co.uk**

The e-book is also Recite Me compatible for those requiring information in the spoken word.

Introduction

Welcome to this edition of the independent Lincolnshire Care Services Directory, which contains information for adults looking for care or support within the county, whether they are paying for it themselves or receiving support from the council.

Staying as independent as possible is important to everybody. This Directory contains information about the care and support services available to enable you to do this when remaining at home, moving into a housing with care scheme or within a care home or care home with nursing.

If you feel you need support to remain independent, first look to your community. There's a host of organisations and voluntary services that could help you.

If you think you need more formal care and support, arrange an assessment with your local adult social care department to establish your specific needs. This is free, irrespective of your income, and available to all those who appear to need care and support. More details are provided on page 14. The assessment will determine whether you are eligible for financial support via a Personal Budget, which may allow you to buy in your own support and take control of your situation.

Alternatively, your circumstances may mean you are classed as a 'self-funder', with the means to pay for your care. This is discussed on page 24 for those paying for care at home and 47 for those paying for residential care.

Support or care to remain living in your own home may be the option that best suits your circumstances. Ideas to make life easier at home start on page 6 and a list of local home care providers begins on page 28.

If you are unable to remain at home, you may want to consider a housing with care scheme (see page 42) or residential care. Comprehensive lists of care homes and care homes with nursing in Lincolnshire start on page 56.

There's also important information about care decisions, including finding care in another county, making a comment or complaint about a service and how solicitors can help you.

Finding care in your area

Looking for care in your area? Want to know the quality rating of providers you're considering? Care Choices, publisher of this Directory, has a website providing comprehensive details of care providers as well as essential information.

You can search by postcode, county or region for care homes, care homes with nursing and home care providers that meet your needs across the country. Your search can be refined by the type of care you are looking for and the results can be sent to you by email. They can also be saved and emailed to others.

The website includes detailed information for each care provider, including the address, phone number and the service's latest CQC inspection report and rating (see page 53), indicating the quality of care provided.

You can also view an electronic version of this Directory on the site and have it read to you by using the 'Recite Me' function.

Lincolnshire Care Association (LinCA)

Supporting social care across Lincolnshire

LinCA supports adult care providers of domiciliary care, end of life care, care for people with learning disabilities and mental health conditions, nursing homes, residential care homes and supported living within the independent and voluntary sectors in Lincolnshire.

The association offers accessible information, advice, support and development opportunities to care providers to enable them to respond to changing needs through the provision of high-quality, innovative services. The association also works closely with other agencies and organisations to achieve whole system improvement in Lincolnshire.

LinCA helps its members get their voices heard, both locally and nationally, and supports them to provide better care across Lincolnshire. It plays a key role in promoting a positive image of the care sector, ensuring there is quality and choice in the provision of care services within the region.

LinCA is a not-for-profit association managed by a voluntary Board of Directors appointed by our members, drawn from large and small organisations as well as individual professionals. Each Director represents a specific area of care and support across the county.

The association is part of the Lincolnshire Integrated Care System, and it represents our members at meetings with colleagues from the health, adult care and housing sectors locally, regionally and nationally to consider issues such as commissioning, service design, development and evaluation.

LinCA has established the Care Home Trusted Assessor project at acute hospitals across Lincolnshire which supports more effective and efficient discharge arrangements for patients returning to or moving into care homes.

Melanie Weatherley MBE

Chair of Lincolnshire Care Association

CareinLincs

CareinLincs, a service provided by LinCA, has developed a workforce strategy to enable the care sector to meet the needs of service users now and in the future.

This has been achieved with the help of care providers and through partnerships with Lincolnshire County Council, NHS Lincolnshire Integrated Care Board, all local NHS Trusts, Health Education England, Skills for Care, further and higher education colleges and the Greater Lincolnshire Local Enterprise Partnership.

CareinLincs offers a fully integrated service for every adult social care provider in Lincolnshire. To deliver quality standards and improved services as well as business support, the service is supported by four pillars for growth:

1. The association provides a workforce development offer to support current and future pathways that meet the needs of today's

employers and their employees.

2. It showcases opportunities to join the workforce through recruitment and careers support, including access to apprenticeships.
3. CareinLincs allows providers to have a fully integrated digital footprint and open up opportunity to access central, regional and local funding.

CareinLincs provides a link into the Care Home Trusted Assessor Team, located at all local acute hospitals across Lincolnshire, which supports hospital discharge back into social care.

For further information about **LinCA** and **CareinLincs**, call **01522 581073**, email **helpdesk@linca.org.uk** or visit **www.linca.org.uk/CareinLincs.asp**

For all enquiries about CareinLincs, reference Mark Turton, Head of Workforce.

Helping you to stay independent

Services developed in partnership with the voluntary sector

Adult social care works with voluntary and community organisations to supply preventative care services. These are a vital form of support and help to maintain independence and social inclusion, and delay or avoid the need for more statutory interventions.

Examples include:

- day services, lunch clubs and social groups;
- befriending, visiting and telephone contact services;
- support schemes to help people being discharged from hospital;
- support for carers; and
- handyperson schemes.

Connect to Support Lincolnshire is an online information and advice library, community

directory and marketplace for adults in Lincolnshire. This website is intended for adults who want to find out about local groups, activities and services within the community.

Day care centres

Many people can feel lonely or isolated without an opportunity to fill their days with meaningful activities. Research has shown that one way to alleviate loneliness and promote wellbeing and independence is to provide regular social contact and a focus for activities.

Day care centres give people the chance to

change their routine, meet new people, take up an activity or receive specialist services such as chiropody or hairdressing. There is a wide variety around the county, catering for older people and people with mental health conditions, learning disabilities and dementia. Centres can be as important for carers as those attending, as they allow for a regular break from caring.

Meals on wheels

Some services can deliver frozen or freshly cooked meals to your home. Frozen meals can be delivered in bulk and kept in your freezer until required, while hot meals should be eaten immediately.

You may find a service by word of mouth or using the internet – your local library may be able to help here. Search Connect to Support Lincolnshire for local services. Visit

<https://lincolnshire.connecttosupport.org>

Adult social care can advise on services as well. Call **01522 782155** or check the Lincolnshire County Council website for services in your area at **www.lincolnshire.gov.uk/help-live-home/get-meals-home**

Wiltshire Farm Foods – Lincolnshire

Tel: **01427 666130**

Email: **lincolnshire@wiltshirefarmfoods.co.uk**

Web: **www.wiltshirefarmfoods.com**

Adapting your home

To remain in your own home for as long as you would like to, you should ensure it is safe, secure and warm. Some forward planning to ensure the garden doesn't become a burden is also sensible. If you are not planning to move, think about adaptations that would make life easier now and later on.

Home Improvement Agencies (HIAs)

HIAs are local organisations funded and supported by local and central Government. They work professionally and sensitively with older and disabled homeowners, providing advice, support and assistance to help them repair, improve, maintain or adapt their homes to meet their changing needs.

Most HIAs provide three main services, including: information and advice on repairs or adaptations you may be considering – this usually entails a visit to your home and is often free; a handyman service for small jobs and repairs – typically, the HIA will employ its own handypersons and charge you an hourly rate for their services; and a home adaptations service for more major works. The HIA will work with you to specify the adaptations needed

and will normally offer to get estimates from one or more of its regular contractors. Subject to your acceptance, the HIA will then offer to manage the works contract for you for an agreed fee.

HIAs may also be helpful if you are not sure whether you can afford the home repairs or adaptations you need. They can advise on your eligibility for any grants and, if necessary, put you in touch with an independent financial adviser.

For further information about, and contact details for, local HIAs, visit **<https://housingcare.org>** or contact your local council.

Specialist equipment

If you need help with tasks around the home, there is a range of specialist equipment available to make life easier and to improve your safety and independence, such as stair rails, raised toilet seats and shower stools. These items are often referred to as 'simple aids for daily living'.

Living Made Easy provides a quick and easy-to-use online equipment service and guide. It can help you to identify the equipment that may help if you have difficulties with everyday tasks.

Visit <https://livingmadeeasy.org.uk> to learn more about possible solutions or see pages 11 to 12.

Once you have identified equipment that might help with your support needs, use the checklist on page 13 to make sure it's right for you.

Useful contacts

Complete Care Shop

A national organisation offering thousands of daily living and disability aids to purchase privately.

Tel: **03001 000248** (Monday to Friday, 9.00am to 5.00pm).

Email: customerservice@completECAreshop.co.uk

Web: www.healthcarepro.co.uk

Lincolnshire Integrated Community Equipment Service (ICES)

Lincolnshire County Council's equipment service can provide a range of items, from walking frames to mobile hoists, to help you remain living independently. You may have to pay for some items provided by this service, depending on the outcome of an adult care assessment (see page 14).

Tel: **01522 782155**

Telecare

Telecare is equipment that can detect falls, inactivity, smoke, flooding, gas or extreme temperatures in the home. When the sensors in the equipment are activated, it will connect to a response centre where trained operators will contact the individual through their home unit. They will take the most appropriate action, such as contacting a nominated responder, family member, carer, neighbour, doctor or the emergency services.

Telecare can allow you to regain confidence in your home and remain independent. Relatives and carers are also reassured, safe in the knowledge that, should an incident occur, someone will be on hand to help. Some devices can also help to monitor particular health conditions and reduce the need for hospital admission.

You can buy Telecare and assistive technology from private companies and organisations or, if you're eligible, through an assessment (see page 14), Lincolnshire County Council may be able to provide support to help you access equipment.

For further information, visit

www.lincolnshire.gov.uk/help-live-home/telecare

NRS Telecare

Lincolnshire County Council's Telecare and assistive technology provider.

Web: www.nrstelecare.co.uk/lincolnshire

Making life easier at home

If you're having difficulties with everyday tasks, these simple solutions could make life easier and enable you to retain your independence. These are a starting point; other solutions are available, which might better suit you.

Finding it difficult to **get in and out of chairs**? Try putting a piece of hard board under the seat base. Alternatively, buy chair raisers, a higher chair or an electric riser chair. Also try taking regular gentle exercise to improve your mobility.

If you can't **reach your windows**, could you move furniture out of the way? Ask someone to help if you need to move heavy furniture. There are also tools for opening and closing windows.

Struggling to **keep warm/cool**? Consider a fan or heater. Is your house insulated? Are there any draughts? You may also be eligible for the winter fuel payment from the Government. Visit www.gov.uk/winter-fuel-payment

If you have trouble **using light switches**, think about replacing your switches for ones that are easier to use. Consider handi-plugs or light switch toggles, or there's even technology available that turns your lights on and off using your speech.

Use subtitles if you **can't hear the TV** or buy wireless headphones. Do you need a hearing aid? Request an assessment from your council.

Do you **forget to take your tablets**? Make a note of when you've taken them or buy an automatic pill dispenser or pill box. If you struggle to open your medicine, ask your pharmacist for advice on alternative packaging that could make it easier for you.

Can you **reach everything in your cupboards**? If not, try a handi-reacher or rearrange your kitchen so the things you use most are within easy reach.

If you are having **problems with preparing food**, consider buying ready-chopped options or try a chopping board with spikes. There are also long-handled pans, teapot tippers and lid grippers that could help. Palm-held vegetable peelers or a food processor might be a solution and meal delivery services are also available.

Is **eating and drinking becoming difficult**? Large-handed cutlery could help, as could non-slip mats for the table. Lightweight cups and mugs with two handles could also be a solution.

Having tap turners fitted can make **using taps** easier. You could also consider changing to lever-style taps, which might be easier for you to use. →

➔ More information on staying independent and ideas to help you live at home can be found online at www.carechoices.co.uk/staying-independent-at-home/ There is also information on making larger adaptations to your home.

If **moving whilst in bed** is a problem, have you thought about using an over-bed pole? You might also want to buy a pillow raiser or change your bedding so it's lighter.

Is it becoming **difficult to get dressed**? If so, specially adapted clothing is available, or you could buy a long-handled shoe horn, a dressing stick or a button hook. If you are having a lot of difficulty, consider home support – see page 19.

Clocks are available with large numbers or lights if you **can't read the time** in bed. You can also buy clocks that speak the time.

If you are **finding it harder to read in bed**, consider an e-reader that allows you to change the font size. Some also have integrated lights. Look for bedside lamps with a step-on or button switch if yours are difficult to use.

Do you **struggle to get in and out of bed**? You could learn new ways of moving around, purchase a leg lifter or a hoist, or install grab rails for support. Seek advice about these options. If the bed is the issue, you could buy an electric adjustable bed or raise the bed to the right height.

If it's **hard to hold your toothbrush**, try a toothbrush gripper. You might also benefit from having an electric toothbrush or sitting on a stool while brushing your teeth.

You might like to buy a raised toilet seat or a seat with a built-in support frame if it's **hard to use your toilet**. Flush-lever extensions are also available.

Has it become more **difficult to wash**? Items are available, like long-handled sponges and flannel straps. You could also consider a slip-resistant bath mat, grab rails, a half step to help you get in and out of the bath, or a bath or shower seat. Tap turners can also be used in the bathroom.

For more information on technology that could make your life easier, contact your council for an assessment. They might refer you to an occupational therapist (OT) or you could contact an OT privately. Search online for OTs near you.

It's a good idea to consider the following questions before buying any assistive technology. If you are unsure about what technology might help meet your needs, you can contact your council or visit <https://livingmadeeasy.org.uk>

You can download and print this checklist at www.carechoices.co.uk/checklists

Suitability

Does the equipment support your specific needs? ☐

Are you willing to use it? ☐

Will it fit into your everyday life and routine? ☐

Have you tried a demo of the equipment? ☐

Do you understand what the equipment is for? ☐

Do you need to take it with you when you leave the house? Is it transportable? ☐

Does the equipment have any limitations that would make it unsuitable for you? ☐

Will it work alongside any assistive technology you already have? ☐

Usability

Is a simpler piece of equipment available (e.g. a pill case rather than an automated pill dispenser)? ☐

Does the equipment need a plug socket and will any wires cause a trip hazard? ☐

Is it easy to use? Can you read/hear it clearly and are any buttons big enough for you? ☐

Are you able to use it? Are there any aspects you don't understand? ☐

Will it need to be installed by a professional? ☐

Can the retailer provide you with training in using the equipment? ☐

Reliability

Will it work if you have pets or live with other people (e.g. could someone else set off a sensor alarm by accident)? ☐

Have you read reviews of the equipment you are looking at? Consider these before making your purchase. ☐

Can you speak to someone who already uses it? ☐

Does it require batteries? Find out how often they will need changing and whether the equipment will remind you to do this. ☐

Is it durable? If you drop it, is it likely to break? ☐

Cost

Do you know how much it costs? ☐

Will you need to pay a monthly charge? ☐

Are there alternative solutions that might be free? ☐

Is there a cost associated with servicing the equipment? ☐

Notes

Support from the council

The way councils provide services to eligible adults and their carers is called personalisation. This term is used to describe a number of ways in which eligible adults can receive a mixture of local authority and Government money to pay for the care services

they need without direct council involvement. If you approach the council for social care support, your needs and finances will be assessed. If you have a carer, they can be involved and have their needs assessed too.

Your assessment

If you appear to have care or support needs, you have the legal right to have an assessment of your care needs and finances. Councils are statutorily obliged to provide this to you, regardless of whether you access their services.

The assessment (which is free) will consider:

- how you can best be supported to live as independently as possible;
- your home and how you are coping in it;
- your emotional wellbeing;
- your diet; and
- any health and medical treatments you need.

You will need to contact adult social care to arrange

an assessment. Call **01522 782155**.

Once adult social care understands your care and financial needs, the next stage is to determine what services you may be eligible for and who will pay for them. The council will give you more information on eligibility and the national eligibility criteria it uses at the time of your assessment.

Information on paying for care can be found at **www.lincolnshire.gov.uk/adult-social-care/paying-care/3** or on page 24 if you are receiving home care and at **www.lincolnshire.gov.uk/adult-social-care/paying-care/4** or on page 47 if you are moving into a care home.

Personal Budgets

If you are eligible for support from the council, you may be given a Personal Budget. A Personal Budget is the amount of money that the council calculates it will cost to meet your support needs.

If you are eligible for a Personal Budget, the actual amount you receive will depend on your eligible needs and your finances. The money should be spent in line with a support plan that has been agreed by both you and the council and can be either a full or a partial contribution to such costs. You may also choose to pay for additional support on top of the budget. Any eventual contractual agreement for services is between you and your care provider, not the council.

If you are eligible, a Personal Budget may be taken:

- in the form of a Direct Payment, held directly by you or, where you lack capacity, by a

‘suitable person’;

- by way of an account held and managed by the council in line with your wishes; or
- as a mixture of these options.

Assessments from hospital

If you have been admitted to hospital and you might need care on discharge, you may be referred to the discharge team for an assessment, which will take place on the ward. The team may be made up of social workers, carers' officers, mental health workers and housing officers.

Whatever services you need on discharge, adult

social care will work with you, your family and carers to either restart services already in place prior to admission or to provide the appropriate services, if you are eligible.

Sometimes interim care packages are set up to facilitate your discharge and you will be reassessed by a community social worker within four to six weeks.

Reablement

Reablement is an intensive short-term service that helps people regain skills and confidence, for example, after a fall or hospital stay. You may need to have an assessment of your care needs to decide whether you are eligible. If you are eligible, a reablement worker will support you for a limited period, usually up to six weeks.

Reablement helps people to learn or re-learn daily living skills. It is not about doing things for you; it is about giving you the skills and confidence to do things for yourself. It can also mean that you do not start to depend on costly support services.

For example, a reablement worker could help you regain your confidence following a fall or provide support that enables you to prepare a meal if there has been a change in circumstances that means you need to cook. They may also identify pieces of equipment that could support you to regain or maintain your independence for as long as you can.

Speak to your GP, hospital staff or adult social care if you think you might benefit from reablement. They can put you in touch with the right services if they feel that reablement will help you.

Intermediate care

Intermediate care gives recovery and rehabilitation support to help people regain their independence when they come out of hospital or, just as importantly, to prevent them from going unnecessarily into hospital.

Intermediate care can be provided in your own home or in a care home, depending on local policy and your specific needs. The care can be provided by care staff, occupational therapists and physiotherapists, with additional support provided by the local GP surgery, social workers

and community nurses. This combined resource helps people to regain their independence and feel confident in their ability to manage for themselves with any necessary additional support.

Intermediate care, including any care home fees where relevant, is provided by the NHS and is free. It is usually limited to a maximum of six weeks. If, after this, you have ongoing care or support needs, the council will conduct an assessment and may help you to arrange any services you might need. There may be a charge for these services.

NHS Continuing Healthcare

NHS Continuing Healthcare is a package of continuing care that is arranged and funded solely by the NHS. This is free of charge, wherever it is delivered. NHS Continuing Healthcare support may be provided in a care home or care home with nursing or in a person's own home.

People eligible for NHS Continuing Healthcare will have been assessed to have a 'primary health need' and are likely to have complex medical needs and substantial or intense ongoing care needs.

See page 15 for more information.

Personal health budgets

A personal health budget is an amount of money to support a person's identified health needs. It is planned and agreed between the person and their local NHS team.

The aim is to enable people with long-term conditions and disabilities to have greater choice, flexibility and control over the healthcare and support they receive.

Services for carers

Who is a carer?

A carer regularly looks after, helps or supports someone who can't manage everyday life without their help. The carer doesn't have to be living with the person they care for, and the help they give doesn't have to be physical.

The carer may be caring for a partner, relative, friend or neighbour. For example, it may be someone who:

- is over 60;
- is living with dementia;
- has a physical or learning disability or a mental health condition;
- has sight, hearing or communication difficulties;
- has a long-term health condition; or

- misuses drugs or alcohol.

The carer may be helping with:

- personal care, such as washing and dressing;
- going to the toilet or dealing with incontinence;
- shopping and food preparation;
- eating or taking medicines;
- getting about at home or outside;
- practical help at home and keeping someone company;
- emotional support or communicating; or
- keeping an eye on someone to make sure they are safe.

Having a carers' assessment

Anyone who provides, or intends to provide, regular unpaid support to someone who could not manage without their support has the right to have their own needs assessed, even if the person they care for has refused support services or an assessment of their own needs.

A carers' assessment is an opportunity for people to tell the council what they need as a carer, and to find out what support might be available. The assessment is an essential first step for carers to get the support they may need. The assessment looks at:

- the care the carer provides and how this affects their life;
- any support they are getting now and what else

would help; and

- what the carer would like their support to achieve.

The assessment can also give lots of information about other services that might help and provide additional ideas for where the carer can find support. The carers' assessment will show if the carer qualifies for support from adult social care.

Carers' Personal Budgets

A carers' Personal Budget is a single payment that can be used towards the cost of something specific that will support them in their caring role. For example, it could be used for leisure activities, education or training or just to take a short break from caring.

When adult social care considers a carers'

Personal Budget, it gives priority to situations where there is a significant risk of the carer not being able to continue to provide care if they do not get some support. The amount a carer could get depends on the needs identified by their carers' assessment. The money is not taxed, and it will not affect any benefits.

Respite at home

Home-based respite services give carers a break from their caring responsibilities. A care worker can come in to look after the person being cared for, so the carer can have some time to themselves. The breaks could be regular or just when needed.

Respite at home is considered to be a service for

the person who is being cared for. If they have a Personal Budget for their own needs (see page 14) they could use that money to pay for it.

A financial assessment of the person being cared for will confirm whether they need to pay towards the cost of this service.

Benefits

There are several benefits that carers may be entitled to and it is worth exploring all of them. One such benefit is the Carer's Allowance. This is currently £83.30 per week but it may change over the lifetime of this Directory.

Carers may also qualify for Carer's Premium or Carer's Credit, depending on their eligibility. If the person you're caring for receives the severe disability premium (or severe disability addition in Pension Credit), this may be lost if you claim Carer's Allowance and/or Carer's Premium. Seek specialist independent advice before claiming Carer's Allowance.

Carer's Premium is an extra payment of up to £46.40 per week that can sometimes be added to the calculation of other benefits you might get on top of Carer's Allowance. Carers who do not qualify for Carer's Allowance may qualify for Carer's Credit. The Government's website (www.gov.uk) has more information on benefits, including carers' benefits. Alternatively, contact a local carers' organisation which may be able to help undertake a benefit check for you.

You can find out more about the organisations supporting carers in Lincolnshire by exploring www.lincolnshire.gov.uk/support-carers

Resource for people supporting disabled children

My Family, Our Needs is an online resource providing impartial information for parents, carers and practitioners supporting children from birth to 25 years with additional needs.

As well as guidance, policy and signposting, there is a lifestyle section for parents covering topics such as health and wellbeing, work, family and relationships. Visit www.myfamilyourneeds.co.uk or email hello@myfamilyourneeds.co.uk

Based Support
& Care Service**

FocusAbility

LEARNING DISABILITY CARE & SUPPORT

ABOUT US

Finding the **right support** and care provider can be quite scary and take up a lot of time. We can make the important job of finding the right care and support for you, or the person you care for, as simple and straightforward as possible.

At FocusAbility, we are proud to offer high quality Day care and Community Supported Living services to our clients in **Lincoln** and the surrounding area.

DAY OPPORTUNITIES

We offer social contact and activities for those wanting to meet new friends and learn new skills and promote their independence.

COMMUNITY SUPPORTED LIVING

FocusAbility's view of Community Supported Living is to encourage people to access the support and care they need to live as independently as possible.

 **01673 844 423**

 **Ryland Bridge, Welton, Lincoln, LN2 3RP.**

 **Rachael@focusability.co.uk**

www.focusability.co.uk

Care in your own home

Carefully chosen home care with a good-quality provider is an excellent way to retain your freedom and independence, whilst getting the help you need

to stay happy and safe. It can offer the opportunity to stay at home, in your own familiar surroundings, and to retain a quality of life you might have feared lost.

Why choose home care?

Reasons for choosing home care can vary. Sometimes after a stay in hospital, someone might find they need some help whilst they recuperate. Others can find that a long-term condition or disability means they can no longer cope and they need a bit of help.

After a stay in hospital someone may carry out an assessment of your situation to see if home care will benefit you. You and your family will be fully involved in looking at what will suit you best if you'd like them to be.

Alternatively, you or those close to you might notice changes in your ability to manage the day-to-day things you normally cope with easily, like preparing meals or looking after yourself. If this happens, contacting adult social care is a good first

step towards finding help.

How home care can help you

The level of home care provided can be tailored to meet your needs – from a visit once a day to a much greater amount of support.

Even those with quite significant and debilitating medical conditions can get skilled personal care that can enable them to stay in their own homes.

Some agencies will provide live-in care, where a care worker will stay with you at home to support you throughout the day and night. For more information about live-in care, see below.

A list of all home care agencies operating in Lincolnshire starts on page 28.

Live-in care

Live-in care is a viable alternative to residential care, where a fully trained care worker lives and works in your own home to support your individual needs and help you maintain your independence. The carer must be allowed breaks and have somewhere to sleep at night.

Support available from live-in carers can range from personal care and mobility assistance to more complex health requirements, as necessary. The cost of live-in care varies depending on your circumstances, including the level, type and duration of care that you require.

Any organisation that employs live-in carers is required to register with the Care Quality Commission (CQC) and ensure that its employees follow the essential standards of quality and safety in their practices. For more information about the CQC, see page 53.

Search for care in your area

- Find care providers quickly and easily
- Search by location and care need

 CareChoices

www.carechoices.co.uk 

Finding the right support

This Directory offers a website service allowing you to search by postcode or region for care homes, care homes with nursing and home care providers that meet your requirements across the country. Your search can be sent to you by post or email.

If you are searching online, the results can be saved and emailed to others. You can also view an electronic version of this Directory on the site and have it read to you by using the 'Recite Me' function.

Whatever your care needs, this Directory and the Care Choices website service will be able to point you in the best direction, however you would like care information presented.

Visit **www.carechoices.co.uk**

The Care Quality Commission (**www.cqc.org.uk**) is responsible for checking that any care provided meets essential standards of quality and safety. Further information is on page 53.

The Homecare Association requires its members to comply with a code of practice. This code includes a commitment to treat customers with dignity

and respect and operate at a level above the legal minimum required in legislation.

Social care regulations do not apply to cleaners, handypersons or gardeners. However, some home care agencies are increasingly providing staff who can help meet these needs too.

The benefits of using a regulated agency include:

- assessing your care needs and tailoring a plan to meet those needs;
- advertising, interviewing and screening suitability of workers;
- arranging necessary insurance cover;
- providing training and development for care workers;
- managing workers' pay, including compliance with the National Minimum Wage;
- managing employment relationships, including sickness, absence and disciplinary matters; and
- managing health and safety issues.

Living with dementia at home

If you are experiencing persistent forgetfulness or memory difficulties and it is causing you to feel concerned you should consult a GP. They can undertake an initial examination and refer you to a memory clinic for further investigation if necessary.

The various types of support available to you and your carer are likely to involve NHS services, adult social care and voluntary agencies. Some examples of services and support to help people living with dementia include:

- specialist day centres;
- respite care or short breaks;
- assistive technology and community alarms;
- home care;
- meals at home;
- community equipment;
- extra care sheltered housing; and
- carers' support groups.

Family support

If you know someone who is worried about their memory, encourage them to visit their GP. The more support you can give someone, the better life with dementia can be, especially in the early

years. Focus on what the person can do, not what they cannot do, help with little errands or with cooking, listen to the person with dementia, and find out more about the condition.

When someone is living with dementia, they need:

- support to live their life;
- reassurance that they are still valued and that their feelings matter;
- freedom from as much external stress as possible; and
- appropriate activities and stimulation to help them to remain alert and motivated for as long as possible.

Dementia Friends

People with dementia sometimes need a helping hand to go about their daily lives and feel included in their local community. Dementia Friends gives people an understanding of dementia and the small things they can do to make a difference to people

living with dementia – from helping someone find the right bus to spreading the word about dementia.

See **www.dementiafriends.org.uk** for further information.

Respite care

Spouses, partners and relatives who care for a person with dementia may require a break from their caring responsibilities. This is known as ‘respite care’ and may be a regular break of a few hours a week or a period of a few weeks.

It may be planned or be required in an emergency

and can involve the person with dementia attending a day centre or a care worker visiting the person’s home to enable the carer to have a break.

Contact the council to see if you are eligible for support with arranging these services – see page 14 for information on assessments.

Care at home

It can often be best for a person living with dementia to stay living in their own home for as long as possible. This may mean they require some support services at home to help them continue to live well with dementia.

The person living with dementia will respond best to having the same care staff who know them well. Continuity of care can be provided by either care agencies or carers employed directly by the person or their family.

Specialist dementia day centres

A good day care service will offer a range of activities and support that will enable the person with dementia to retain skills and remain part of their local community.

Specialist day centres for people with dementia should be organised and run with their needs in mind, aiming to build on their strengths and abilities. Activities may include outings, entertainment, personal care, meals, hairdressing and support for carers.

Attendance at day centres can be offered from just a few hours a week to several days. Contact the council or your local Alzheimer’s Society office for

more details. See ‘Useful local contacts’ beginning on page 78.

Local dementia support groups

Joining in new activities and sharing experiences with other people can be a positive and rewarding experience for those with dementia.

Every effort has been made to check the accuracy of the following information. However, it is subject to change during the lifetime of this Directory. For the latest information, contact the provider directly.

Alzheimer's Society

This leading charity works to improve the quality of life for people affected by dementia. If you have concerns about any form of dementia, please contact your local office for information and support and access to local services. See page 78 for contact details.

Alzheimer's Society's National Dementia support line is available on **0333 150 3456** and can

provide information, support, guidance and signposting to other appropriate organisations. The support line is open from Monday to Wednesday, 9.00am to 8.00pm; Thursday and Friday, 9.00am to 5.00pm; and Saturday and Sunday, 10.00am to 4.00pm.

For more information on care homes for people with dementia, see page 46.

Dementia Support Service Lincolnshire

The service, provided by the Lincolnshire Partnership NHS Foundation Trust, gives people access to a support worker who will provide guidance and advice throughout all stages of dementia.

Support workers are based in the community, working from the different memory clinics across the county. The service accepts referrals from the public and professionals in health and social care, such as from GPs.

To make a referral, call **0303 123 4000**, email lpft.memorysupportservice@nhs.net or visit www.lpft.nhs.uk/memory-support

Paying for care in your home

Councils provide upfront information on how much people can expect to pay for home care and how charges are worked out. This information must be made available when a needs assessment is carried out. Written confirmation of how the charge has been calculated must be provided after a financial assessment.

If you have more than £23,250 in savings or capital, you will have to pay the full cost of your care. The value of your home is not counted when working out charges for non-residential care. If you have more than £23,250, you should tell Adult Social Care when your savings are likely to fall below this amount.

The council calculates charges in accordance with

national eligibility criteria set by the Government. This ensures people are only required to pay what they can afford, taking into account capital, income and expenditure.

Your assessment looks at how much money you have coming in, gives an allowance (set by the Government) for everyday living expenses and makes allowance for disability-related expenditure. This is the extra amount you spend as a result of your disability or illness. Adult social care can help you to identify these costs. They will also carry out a full benefit check and, if you want them to, assist you with claiming your full entitlement.

Figures mentioned here may change over the lifetime of this Directory.

Non-means-tested care and support

Care provided by the NHS is free; for example, services provided by a community or district nurse. Some people do not have to pay towards care services. For example, aftercare services provided under section 117 of the Mental Health Act are free of charge.

If you need care or support, you may be eligible to claim Attendance Allowance (AA) or Personal Independence Payments (PIP). AA and PIP are non-means-tested benefits. Provided you are eligible, you can receive AA or PIP regardless of how much income or capital you have.

AA is payable to people over State Pension age and PIP to those aged between 16 and State Pension age. There are different rates that can be awarded, dependent on the level and type of help you need. These can be found at **www.gov.uk** and you can check your State Pension age at **www.gov.uk/state-pension-age**

Other ways to fund your care and support

It is important to seek independent financial advice if you are paying for your own care and support. There are independent financial advisers that

focus specifically on care funding advice, often referred to as specialist care fees advisers. They are regulated by the Financial Conduct Authority (FCA) and must stick to a code of conduct and ethics and take shared responsibility for the suitability of any product they recommend.

Money Helper

A free and impartial money advice service set up by the Government.

Services Ltd.**

Love & Care for Older People

We are a domiciliary care agency supporting adults aged 18+, offering
personal care, palliative care, respite, live-in care and **Independent
supported living**. We also provide **residential care home services**, including
short-stay recovery for individuals recuperating from illness, supported
living accommodations, ensuring compassionate, tailored support to
promote dignity, independence and well-being in all our services.

Family Values, Data Informed Care

Specialist residential care services for individuals with learning disabilities, autism and complex needs.

We offer outcomes-based services and create bespoke environments, care and support with a focus on meaningful pathways and wider life fulfilment.

Parents Through transparent and effective care and support, we enable your young person to achieve their goals and aspirations, focusing on independence, self-worth and new opportunities.

Teachers We build on the progress achieved through education to enable further progression with life skills, developing your students to their full potential.

Commissioners We are a successful social care alternative to Assessment and Treatment Units (ATUs) for individuals with behaviours of concern, or nursing services for individuals with complex health needs.

Do you need care at home in Grantham?

If you need a little extra support at home, our carers can help. We are able to support with personal care, shopping, cleaning, and companionship and offer pop-in calls of as little as thirty minutes, through to live-in care. Care at home is the perfect choice if you want to stay in the comfort of your own home and you need extra support and the reassurance of carers to help you maintain your daily routine.

- We will put together a **care plan based around your needs**, with as much or as little support as required.
- Our **friendly carers** are trained and supported to exceptional standards.
- You are able to **keep your independence** and avoid the upheaval of moving into a care home.
- We provide support from our office nearby with a team of supervisors, who are on hand **24 hours a day**.

"From not knowing where to begin to look for the highest level of personal support for my mother we have found this and more from the outstanding care and guidance provided by Greenwood Homecare."

Housing with care

Housing with care combines independent living in a home with security of tenure, along with care services arranged according to need. Schemes may be run by housing associations, the local authority,

voluntary organisations or private companies.

Properties may be available for rent, mixed tenure or to purchase.

Supported Living

Supported Living is a term generally used to describe situations in which people (often adults with a learning disability or mental health condition) rent their home, and their personal care or support is arranged separately. This means they can change their support without having to move or move and take the same support with them. People have greater security of tenure and can claim a wider range of welfare benefits than they can in residential care.

local authority or charity may own the property.

Supported Living refers to the way in which accommodation and support are organised, rather than the amount of support. This is tailored to your individual needs and can include access to support 24 hours a day if assessed as necessary, although many people do not require this – particularly with the use of assistive technology (discussed on page 10).

Supported Living can be delivered in a range of settings, including individual flats or houses, clusters of self-contained flats on the same site, shared accommodation and extra care housing. The individual, a private landlord, housing association,

For further information, contact **Lincolnshire County Council's Customer Service Centre** by calling **01522 782155** or emailing **csc_socialcare@lincolnshire.gov.uk**

Shared Lives

Shared Lives is a care service for older people and adults with learning or physical disabilities. It is family-based care provided by individuals

and families. Shared Lives carers are local people recruited and trained to make sure they have the right qualities to provide care and support.

Sheltered housing

If you are an older person who would like to live independently but would also like the added security and reassurance of a scheme manager and an alarm call service, sheltered (or retirement) housing may be the answer. Sheltered housing is provided by local authority housing departments

and employs a scheme manager, who is either based at the site or visits regularly.

Many sheltered housing schemes also have communal lounges, laundry facilities, lifts, door entry systems and specially adapted facilities.

Extra care housing

Extra care housing brings together self-contained accommodation with some communal facilities, allowing you to retain some independence in your living space while also receiving help from an on-site designated team of care workers. In an extra care scheme, instead of the low-level support traditionally provided by wardens in sheltered schemes,

higher levels of care and support are provided by the care workers, who can be available 24 hours a day. Extra care allows you to retain your own tenancy and have care services delivered, ensuring you can remain safely in your own self-contained accommodation. For information on extra care housing in your region, contact adult social care.

Specific care and support services

Learning disability

If you are living with a learning disability in Lincolnshire, you should contact your local council for support. They may be able to signpost you to local services and assess your needs in case they can help you.

The council aims to keep people independent in their own homes wherever possible but, if you need to move somewhere with care and support, you might like to consider a housing with care scheme – see page 42.

If your needs are such that you require support in a care home, this Directory contains a list of all care homes in Lincolnshire, starting on page 57.

All learning disability providers are denoted with **LDA**.

For further information, contact Lincolnshire County Council's **Customer Service Centre** on **01522 782155** or email **csc_socialcare@lincolnshire.gov.uk**

Mental health

If you are worried about your mental health, it's important to remember that you aren't alone. Lots of people have issues with their mental health and there is help and advice available in Lincolnshire to support you.

Lincolnshire Partnership NHS Foundation Trust

Provides a range of services for older adults with mental health-related needs.

Physical disability

If you have a physical disability or a long-term illness, adult social care and other organisations in the independent and not-for-profit sectors may be able to signpost you to, or provide you with, a range

of services to help you live as independently as possible. There are also services available to support someone who may be your carer; see page 16 for more information.

Sensory services

The sensory services team can provide information packs, advice and access to services as well as support from a network of national and local agencies for those who are blind or partially sighted

or have a degree of sight loss.

The team offers a service to people with a significant sight loss in both eyes that is not correctable with

surgery or glasses. If your sight loss is not as severe as this, the team can give you advice about appropriate support available from other organisations.

If you care for someone with a sensory need, the sensory services team can carry out an assessment of your needs as a carer to help you to continue to support them. For more information or to make a referral, use the following contact details.

Advocacy

Advocates can give advice, support and information to people of any age. They help you to voice your concerns and guide you through difficult or challenging times. You should consider using the services of an advocate if you feel unsure or concerned when you are faced with making an important decision about your care.

Advocates are not there to tell you what to do or to make decisions for you, but to help you express your

views and make your own decisions. Councils have a legal obligation to provide an advocate to you if you need one at any stage of your care and support planning with them. For all enquiries, contact VoiceAbility Lincolnshire.

Planning for end of life

The subject of dying is often painful to contemplate; however, planning for the end of life can be a good way to share your wishes and help your family to know what you would like to happen. Good planning for all your needs should mean that you can convey your wishes, including where you would like to die if you choose. You may wish to remain in your own home or care home in your last days and not be admitted to hospital.

When choosing a care service, you should consider its end of life care philosophy and policies. Enabling people to die in comfort and with dignity is a core part of providing care. The way care professionals approach the process will be incredibly important for you, your family and carers.

The service should have an open approach to end of life care. It should initiate conversation with you and your family and work with your GP to ensure your needs and wishes are discussed and planned for. An end of life care plan should also be drawn up, as it is vital to establish your preferences and choices. You could use the Preferred Priorities for Care (PPC)

document to help with outlining your wishes. The PPC document is designed to help you prepare for the future and gives you an opportunity to think about, talk about and write down your preferences and priorities for care at the end of life.

It is worth asking care providers whether they are working towards The Gold Standards Framework. This can be used in various settings, for example hospitals, primary care and care homes, to improve the co-ordination and communication between different organisations involved in providing care for someone near the end of their life.

Planning for your funeral

While you are thinking about the future, you may want to consider writing down your wishes for your funeral. This can help to alleviate pressures on your family. They may appreciate knowing your wishes, so they can make sure they are considered at your funeral. By detailing your wishes, your family can be comforted by the fact they don't need to make all the decisions about what you would have liked or wonder whether they are making the right choices.

Hospice UK outlines information to help make funeral arrangements easier at www.hospiceuk.org (search 'How to arrange a funeral').

You do not have to instruct a funeral director but, if you do, ensure the director you choose is a member of either the National Association of Funeral

Directors or the National Society of Allied and Independent Funeral Directors. These associations have strict guidelines to which members must adhere.

See page 82 for details of organisations that may be able to help you plan for the end of your life or your funeral.

Care homes

All care homes and agencies providing care at home in England must be registered with the independent regulator, the Care Quality Commission (CQC).

The CQC inspects every care home and home care

agency, publishing a report along with a rating. CQC quality ratings must be displayed at the operator's premises and on its website. You can also find inspection reports and ratings for all services on the CQC's website (www.cqc.org.uk).

Types of care home

Care homes (personal care only)

If you need someone to look after you 24 hours a day, but don't need nursing care, a care home offering only personal care may be the best option. Personal care includes bathing, feeding, dressing and help with moving. It is a good idea to have a needs assessment before you choose a care home to ensure it is the best way to meet your needs. See page 14 for more on assessments.

Care homes with nursing

A care home with nursing provides the same care and support as a care home offering personal care, but with 24-hour nursing staff on hand. If you think you may need nursing care in a home, you will need to be visited by a social worker or a care manager to work out what care you will need.

This visit might be in your own home, in hospital if you've been ill or in a care home. You will be fully involved in planning for your care needs.

If, after a needs assessment, a care home providing nursing care is the best solution for you, a social worker will give you information to help you find a home which meets your care requirements. The cost of the nursing care part of your fees may be paid by the NHS to the home directly: the current amount is £254.06 per week. This figure may change over the lifetime of this Directory – check with adult social care.

For help with finding care homes and care homes with nursing in your area, visit www.carechoices.co.uk

Residential, Nursing, Dementia and Respite Care

Activities in care homes

The word 'activity' can imply many different things but, in the context of a care home, it should mean everything a resident does from when they open their eyes in the morning until they go to sleep at night. Activities should stimulate residents emotionally, physically and mentally and, in a good care home, should encompass all aspects of daily life. They can range from choosing what to wear, to helping with tasks around the home or garden, to listening to the radio or joining in with an art or exercise class.

Above all, activities provide a point of interest, fun and challenge to each day. They should enable

people to participate in daily life, be engaged and maintain hobbies or activities they have enjoyed throughout their life, as well as offering the opportunity to try something new, if they wish.

Lots of care homes now employ a dedicated activity co-ordinator. What they do and how they do it varies from one home to another. Increasingly, they are fully integrated into the staff team, play a key part in developing care plans and ensure that all staff appreciate the part they play in delivering high-quality activity provision. Ensure you speak to any potential providers about the activities they provide in their care home.

Care homes and dementia

A good care home will follow the concept of a person-centred approach to care for people with dementia. This means that the unique qualities and interests of each individual will be identified, understood and accounted for in any care planning.

The person with dementia will have an assessment and an ongoing personalised care plan, agreed across health and social care. This should identify a named care co-ordinator and addresses their individual needs.

They must also be given the opportunity to discuss and make decisions, together with their carers, about the use of advance statements, advance decisions to refuse treatment, Lasting Powers of Attorney and Preferred Priorities for Care. For more information on these last two topics, see pages 52 and 44 respectively.

It is important that care and support options are

tailored to the needs of the individual. Make sure staff know the person you care for by providing life-story books, telling staff about their likes and dislikes and providing belongings that bring comfort and have meaning for them.

Within the home, much is down to the attitude and skills of the manager and the staff. Do they provide an environment that enables a person with dementia to exercise choice and personal preferences even in the later stages of the condition? Who is the person in charge of championing dementia care best practice in the home? Further questions to consider are included in the residential dementia care checklist on page 49.

Design and technology

The design of a care home specialising in dementia should be based on small group living, preferably with accommodation on one level and with opportunities to go in and out of the building within a safe environment.

 <p>WOOD GRANGE BARCHESTER HEALTHCARE</p> <p>Westminster Lane, Bourne, PE10 9TU</p> <p>barchester.com/ Lincolnshire</p>	<p>Care that's shaped around your loved one.</p> <p>We'll spend time getting to know your loved one, and the people and things that are most important to them, so that we can put the right care and support in place.</p> <p>Call 01778 752 570 to find out how we can help.</p> <p>Residential, Nursing, Dementia and Respite Care</p> 
--	--

Plenty of natural light and an easy way of finding one's way around the building and grounds are essential for minimising disorientation.

Staff training

Dementia-specific training is essential to ensure that care home staff understand how

they can best support and care for people with dementia.

Ask about the Dementia Friends Ambassador and, if the home does not have a specific dementia lead, ask whether the staff has the necessary experience to support someone to live well with dementia.

Paying for care

When a local authority provides or arranges your services, you may be asked to contribute towards

the cost of care at home or in a care home, depending on your personal circumstances.

Financial assessment

To determine whether or not you will need to contribute towards the cost of your support, the council will conduct a financial assessment. This will look at your capital, savings and income.

The value of your home is included as part of your capital in this assessment if you are moving into residential care, except in limited circumstances. It is not included if you are receiving care in your own home. If you choose not to have a financial assessment, you will be responsible for paying the full cost of your care and support.

If you have capital and savings of less than £14,250, you may be asked to contribute part of your income and the local authority may meet the shortfall.

If you have capital and savings between £14,250 and £23,250, you are likely to have to contribute part of your income towards your care costs. A sliding scale operates whereby you contribute £1 for each £250

you have in capital and savings above £14,250.

If your capital and savings amount to more than £23,250, you will likely have to pay the full cost of your care yourself. However, you are still entitled to an assessment of your needs by the council, and you may be able to get some support with funding your care – see page 50. These figures may change during the lifetime of this Directory.

If you are eligible for support from the council and are moving into a care home or care home with nursing, you will be given a choice of homes that charge the amount the council would usually pay for someone with your needs.

If the home you choose charges more than the local authority's funding limit, you will need someone else to meet the additional amount. This is often referred to as a 'third party payment' or 'top-up' (explained further on page 50 and 51).

Running out of money

If your capital and savings are likely to reduce to £23,250 through payment of care home fees, you must let the council know well in advance. It must undertake an assessment of your circumstances before deciding if it will make a contribution.

If you become eligible for the council's support with funding your care, and the home you are living in charges more than the council's fee levels, you must find someone to pay the difference. This is known as a 'top-up' or third party payment' (see page 50 and 51).

If funds for a top-up are unavailable, you will need to find accommodation that meets your needs at the local authority fee level.

Understanding your rights before moving into care is essential. There are several financial products and specialist companies that may be able to help. It is important to seek independent financial and legal advice before committing yourself to anything.

See page 51 for more information.

We suggest you take paper with you when visiting care homes so that you can make notes. Please use this checklist in conjunction with the care homes checklist on page 48. You can download and print this checklist at www.carechoices.co.uk/checklists

Design

Are there clear signs throughout the home? ☐ ☐ ☐

Has the home been designed or adapted for people with dementia? ☐ ☐ ☐

Are the home and grounds secure? ☐ ☐ ☐

Are there prompts outside the residents' rooms to help people identify their own? ☐ ☐ ☐

Is the décor familiar to your loved one? ☐ ☐ ☐

Choices

Do residents get a choice in terms of what they wear each day? ☐ ☐ ☐

Are residents encouraged to be independent? ☐ ☐ ☐

Can residents decide what to do each day? ☐ ☐ ☐

Can residents have a say in the décor of their room? ☐ ☐ ☐

Activities

Are residents able to join in with household tasks like folding washing? ☐ ☐ ☐

Are there activities on each day? ☐ ☐ ☐

Can residents walk around outside on their own? ☐ ☐ ☐

Are residents sitting in front of the TV or are they active and engaged? ☐ ☐ ☐

Are there rummage boxes around? ☐ ☐ ☐

Health

Can residents get help with eating and drinking? ☐ ☐ ☐

How often does the home review residents' medication? ☐ ☐ ☐

Does the home offer help if a resident needs assistance taking medication? ☐ ☐ ☐

Do GPs visit the home regularly? ☐ ☐ ☐

Staff

Are staff trained to identify when a resident might be unwell? ☐ ☐ ☐

Are staff trained to spot when someone needs to go to the toilet? ☐ ☐ ☐

Do the staff have any dementia-specific training/experience? ☐ ☐ ☐

Will your loved one have a member of staff specifically responsible for their care? ☐ ☐ ☐

Approach to care

Does the home follow a specific approach to dementia therapy, for example, validation therapy? ☐ ☐ ☐

Will the home keep you informed about changes to your loved one's care? ☐ ☐ ☐

Does the home have a specific approach to end of life care? ☐ ☐ ☐

Does the home keep up to date with best practice in dementia care? ☐ ☐ ☐

*See page 53.

Non-means-tested support

Some support may be available to you without the council needing to look into your finances.

Benefits

Attendance Allowance and Personal Independence Payments are non-means-tested, non-taxable benefits from the Department for Work and Pensions. There are different rates depending on the level of your needs. Everyone who needs care should consider claiming these benefits.

You cannot usually get Attendance Allowance if you live in a care home and your care is paid for by your local authority. You can still claim Attendance Allowance if you pay for all your care home costs yourself.

If you are entitled to the mobility component of the Personal Independence Payment, this payment will not stop once you are in a care home and is not included in your financial assessment.

You may also want to consider applying for Universal Credit (if you are under State Pension age) or Pension Credit (if you are over State Pension age). Check your State Pension age at www.gov.uk/state-pension-age

NHS Continuing Healthcare

Fully funded care and support provided and paid for by the NHS. To be eligible, your needs must be primarily health related and are likely to be severe.

If you are eligible for NHS Continuing Healthcare, you can receive the services in any setting, including your own home or in a care home.

The NHS will pay if you need healthcare from a community nurse or a therapist as well as personal care to help you at home.

Self-funding your care

Paying for care can be an expensive and long-term commitment, so the council strongly recommends that you seek specialist information and advice before entering into any arrangements. It is important that you seek specialist advice from appropriately qualified and regulated financial advisers – see page 51 for suggested contacts.

Twelve-week property disregard

If your former home is included in your financial assessment but your other capital and savings are less than £23,250, and your income is not enough to meet your care home fees, the council may share the cost of the first 12 weeks of permanent care, provided it agrees that care is needed.

Deferred Payment Agreements

After the twelve-week property disregard period, you may be offered a Deferred Payment Agreement. This allows you to delay selling your former home during your lifetime.

Any fees paid by the council will be charged against the value of your home and must be repaid once the house is sold or from your estate. Interest is payable throughout the period of the loan and there is also a one-off fee to join the scheme, which covers all legal and administrative costs for the lifetime of the loan. The council may limit the amount of the loan, depending on the equity in your property.

NHS Nursing Care Contribution

Whether you are a temporary or permanent resident, if you live in a care home that provides nursing care, you may be entitled to a non-means-tested Registered Nursing Care Contribution (sometimes referred to as Funded Nursing Care) towards the cost of your nursing care. This is paid directly to the home.

Third party payments

If you are eligible for support from the council, you will be offered a choice of homes that meet the local authority's funding rates. If you decide to live in a more expensive home and someone is able to make an additional payment for you, they will have to pay

the local authority the difference between its rate and the amount the home charges. This additional payment is called a 'top-up' or 'third party payment'.

You are not allowed to make this additional payment

yourself, except in limited circumstances, so the responsibility usually falls to a family member, friend or charity.

Before anyone agrees to pay your top-up, they should be aware that the amount may increase, usually once a year, and they need to be confident they can sustain the payments for as long as they are required. They will need to sign a contract with the council to confirm they are able to do this. If the additional payments stop being paid for any reason, you should seek help and advice from your council. You may have to move to a cheaper home within the

local authority's funding levels. If you are already a resident in a care home, and no top-up was required at the time you became a resident, the home may seek to introduce one at a later date, which would need to be agreed first with the local authority.

This may happen if a change to your arrangements is made at your request or with your agreement, for example, if you move to a more expensive room. It is important to note that councils have a duty to offer you a place at a home that accepts their funding rates. If no such place is available, a top-up should not be charged.

Seeking financial advice

Planning for your future care and support needs can be complicated and funding care can be expensive. Professional advice may be helpful in enabling you (and your family) to identify the most suitable and cost-effective solution.

Everyone is encouraged to seek unbiased, expert advice from independent financial advisers to help work out how to pay for long-term care. Independent financial advisers are regulated by the Financial Conduct Authority (FCA) and must take shared responsibility for the suitability of any product they recommend.

Unlike advisers who are tied to particular providers, specialist care-fees advisers can offer advice on products from across the whole market. A list of independent financial advisers who are accredited by the Society of Later Life Advisers can be found at <https://societyoflaterlifeadvisers.co.uk>

or you can call **0333 202 0454**.

There are also several organisations that will provide free advice about funding care and support. These are a good place to start if you are looking for information and want to see what your options are.

Important information

Finding care in your area

Looking for care in your area? Want to know the quality rating of providers you're considering? Care Choices, publisher of this Directory, has a website providing comprehensive details of care providers as well as essential information.

You can search by postcode, county or region for care homes, care homes with nursing and home care providers that meet your needs across the country. Your search can be refined by the type of care you are looking for and the results can be emailed to you.

They can also be saved and emailed to others.

The website includes detailed information for each care provider, including the address, phone number and the service's latest CQC inspection report and rating (see pages 53 and 54), indicating the quality of care provided. You can also view an electronic version of this Directory on the site and have it read to you by using the 'Recite Me' function.

Visit **www.carechoices.co.uk**

How solicitors can help

A solicitor can give you impartial advice about wills, gifts, estate planning and powers of attorney. Some can also offer guidance on immediate and long-term care plans, ensuring (if applicable) the NHS has made the correct contribution to your fees.

Lasting Powers of Attorney (LPAs) allow you to appoint someone you trust to make decisions about your personal welfare, including healthcare and consent to medical treatment, and/or your property and financial affairs, if you are unable to do so yourself. An LPA is only valid once registered with the Office of the Public Guardian. It allows a person of your choice to make decisions on your behalf at a time when you may be unable to do so. If a person is incapable of managing their own affairs and does not have an LPA in place, the Court of Protection can issue Orders directing the management of that person's property and financial affairs. The Court procedure is very slow, and the fees are quite expensive, so preparing an LPA in advance is always advisable, providing you have somebody sufficiently trustworthy to appoint as your attorney.

An 'Advance Directive' allows you to communicate your wishes in respect of future medical treatment, but it is not legally binding. You may instead wish to make a living will, properly known as an 'Advance Decision', setting out treatment that you do not want to receive in specified circumstances,

which would legally have to be followed, even if you die as a result.

Any proposed gift out of your estate needs careful consideration of the benefits, risks and implications, particularly on any future liability for care costs or tax liability.

If you don't have your own solicitor, ask family or friends for their recommendations. Contact several firms, explain your situation and ask for an estimate of cost and an idea of timescales involved. Many firms will make home visits if necessary and will adapt their communications to meet your needs. It's important to find a solicitor who specialises in this area of the law. Citizens Advice offers an advice service and will be able to recommend solicitors in your area.

Visit **www.citizensadvice.org.uk**

Comments, compliments and complaints

If you are unhappy about any aspect of your support – whether it's the way you are treated by the staff, the quality of the food you are served or anything else that affects your happiness or comfort – you should feel able to complain. You should also feel free to make comments and suggestions about possible improvements to your surroundings and the services provided.

Making a complaint should not be made difficult for you and should not affect the standard of care that you receive, whether in your own home or in a care home or care home with nursing. Care services are required under national essential standards of quality and safety to have a simple and easy-to-use complaints procedure.

If you are concerned about the care that you, a friend or a relative are receiving, it makes sense to speak to the manager of the service about your concerns before you take any further action. The problem may be resolved quite easily once they are made aware of it.

However, if you need to make a formal complaint, you should initially contact the registered owners of the service. They have a duty to respond to any

complaints made. Visit **www.lincolnshire.gov.uk/comments-feedback/make-complaint** for information about how to complain about council services.

If you have a complaint about a breach of regulations, contact your local office of the Care Quality Commission (see page 53 and 54 for more information about the CQC).

If your local authority has arranged and funded a place for you in a care home or has contributed to a home care service, another option is to complain to your social worker/care manager or the department's designated complaints manager.

If you have been unable to resolve your complaint, you can contact the Local Government and Social Care Ombudsman on **0300 061 0614** and ask them to assist you.

The Local Government and Social Care Ombudsman looks at complaints about councils and some other authorities and organisations, including adult social care providers (such as care homes and home care providers). It's a free service designed to investigate complaints in a fair and independent way.

Inspecting and regulating care services

Health and social care services must be registered to show

that they meet a set of standards. The Care Quality Commission (CQC) is the independent regulator of health and social care in England. It registers care providers and inspects and rates services. When things go wrong, the CQC can also take action to protect people who use services.

After an inspection of a care home or home care agency, the CQC publishes a report of what it found. The report looks at how well the service meets the CQC's five key questions: Is the service safe? Effective? Caring? Responsive to people's needs? Well led?

Each care home and home care agency will get an overall rating of outstanding, good, requires

improvement or inadequate. It will also get ratings for each key question. The ratings mean you can easily see where a service is performing well and where it needs to improve.

It's always a good idea to check inspection reports and ratings when choosing a care service. You can find reports and ratings on the CQC's website (**www.cqc.org.uk**). Care providers must also display their latest rating at their premises and on their website.

You can also tell the CQC about your experiences of care – good or bad. It can use your information to see where it should inspect next and what to look out for when it does.

If you want to share your experience of care, visit **www.cqc.org.uk/give-feedback-on-care**

→ CQC assurance

The CQC assurance framework for adult social care requires the CQC to visit local authorities and assess their processes. Local authorities across England can be visited at any time by the CQC to assess how they are making a difference to people's lives.

The CQC assessment

A key part of the CQC assessment is how local authorities place people's experiences at the heart

of their decisions, and they should expect to be assessed across the following themes:

- working with people;
- providing support;
- ensuring safety; and
- leadership.

For more information, visit

www.cqc.org.uk/local-systems/local-authorities

Write to: The Care Quality Commission, Citygate, Gallowgate, Newcastle upon Tyne NE1 4PA

Out-of-county care

You don't have to move into a care home that is within your current county. You may want to be closer to friends and family members who live elsewhere, or you may have another reason why you'd like to relocate to another part of the country.

If your care home place is state funded, speak to the local authority about who is responsible for your care fees, especially if you choose a care home

in another region. Any home you choose must be suitable for your assessed needs and must comply with the paying authority's terms and conditions. You should seek further advice before making your decision.

For help with finding care providers in Lincolnshire and in other regions, visit **www.carechoices.co.uk** with details of your requirements.

Search for care in your area

With so many providers to choose from, where do you start?

 **CareChoices**

Protecting vulnerable adults

Vulnerable adults may be at risk of abuse, neglect and worse. A vulnerable adult is a person aged 18 years or over who may be unable to take care of themselves or protect themselves from harm or being exploited.

What is adult abuse?

Abuse is mistreatment that violates a person's human and civil rights. The abuse can range from treating someone with disrespect in a way that significantly affects their quality of life, to causing actual physical suffering.

It can happen anywhere – at home, in a care home or a care home with nursing, a hospital, in the workplace, at a day centre or educational establishment, in supported housing or in the street. Forms of abuse could be physical, sexual, psychological, emotional or financial. It could also be an example of modern slavery, self-neglect and even institutional abuse. This is where the abuse affects more than one person within an organisation and is not addressed by the service's management.

Who might be causing the abuse?

The person who is responsible for the abuse may be known to the person who is being abused and could be:

- a care worker or volunteer;
- a health worker, social care or other worker;
- a relative, friend or neighbour;
- another resident or service user;
- an occasional visitor or someone who is providing a service; or
- someone who deliberately exploits vulnerable people.

If you think someone is being abused, contact the Customer Service Centre on **01522 782155** (Monday to Friday, 8.00am to 6.00pm).

Outside of this time, you can contact the Emergency Duty Team on **01522 782333**. Your concerns will be taken seriously and will receive prompt attention, advice and support. If the abuse is also a crime such as assault, racial harassment, rape or theft, you should involve the police to prevent

someone else from being abused. If the police are involved, adult social care will work with them to support you.

If you are worried about contacting the police, you can contact adult social care on **01522 782155** to talk things over first. If immediate action is needed, dial **999**.

You can also:

- contact the Care Quality Commission (CQC) on **0300 061 6161** if the vulnerable adult is living in a registered care home, care home with nursing or receiving home care services; or
- let a public service professional, such as a social worker, community nurse, GP, probation officer or district nurse know your concerns. They have responsibilities under the county's adult protection procedure and can advise you about what to do next.

The Disclosure and Barring Service (DBS)

There is a barring system for all those intending to work, or currently working with, children and vulnerable adults. This service combines the criminal records checking and barring functions. For disclosure information and services, visit **www.gov.uk/db**

Care home or care home with nursing owners, home care agencies and employment agencies that supply care workers are required by law, as part of the range of pre-employment checks, to request specific checks, including disclosures from the Disclosure and Barring Service, before hiring an individual.

Care providers and suppliers of care workers are also required to refer workers to the DBS where, in their view, the individual has been guilty of misconduct that harmed, or placed at risk of harm, a vulnerable adult.

People who know they are confirmed on the list but who seek employment in care positions will face criminal charges including possible imprisonment. It is also an offence for an employer or voluntary organisation to knowingly employ a barred person in a regulated activity role.

Residential care in Lincolnshire

**Built to last,
Made to care**

**Bramhall Residential Home is a beautiful
38 bedded home which is in peaceful
surroundings with picturesque gardens.**

Bramhall has been run by the owner's The Mercer Family since 1998. The Mercer's pride themselves on having a fully established well run home, with long standing staff, whose priority is the care for their residents.

We have light and spacious rooms with profiling beds where most have their own en-suite facilities for privacy, they have patio doors opening onto a landscaped garden with seating areas.

We offer nutritious and well balanced home cooked meals, with a daily choice of menu.

We also provide activities for our residents 7 days a week, with dedicated staff members.

Bramhall promotes a home from home environment, where our residents are classed as our extended family.

We pride ourselves on offering the following:

- **Specialists in Dementia Care with a dedicated wing**
- **Promoters of rehabilitation**
- **Day Care**
- **Respite Care**
- **Short breaks**
- **Convalescence**
- **A Quality of life**
- **CCTV in communal areas for the safety and security of our Residents**

Welcome to visit anytime. No appointment needed.

Search for care in **your area**

With so many providers to choose from, where do you start?

You, a friend or family member may be looking to stay living independently at home, with support from a home care or live-in care provider, or perhaps a care home would be more suitable. The Care Choices website has been designed to help your search for care.

Find care providers quickly and easily
